TWO YOUNG MEN

Killed in Railroad Accident Near Hellier.

Deek Vaughan and Arthur Williamson, of Richardson, C. & O. Brake-men, the Victims.

An accident which occurred on the Marrowbone division of the C. & O., near the town of Hellier, Pike county, about 15 miles from Pikeville at 7 o'clock Tuesday evening caused the instant death of Deek Vaughan, aged 20 years, and the death of Arthur B. Williamson, 20 years old, about sixteen hours later.

Both young men were employed as brakemen on the C. & O., and it was while they were at work in this capacity that death came to them in such horrible form. They had gone up a spur or siding to bring down a couple of loaded coal cars. The grade on which cars lay is said to be quite heavy, and cars, either loaded or empty, would go down the track rapidly if not properly controlled. The young men got on one of the two cars, which were coupled together, and released the brake, thinking, probably, that they could control the descent. In this, unfortunately, they were grievously mistaken. They were entirely unable to control the cars with the brake, although both were at the same brake and doing all in their power to stop the heavy cars or to check their speed. On they dashed down the track.

When they reached the bottom of the spur, where they struck with in my kid's force some cars which were unheatable, the track directly in the way. A good laugh fell between two cars wouders for was ground almost to pieces. A hard day's amon fell under the wheels. For was horribly mangled. His left leg was entirely cut off just below the knee, his left arm was ground off obliquely across from the elbow to the thumb, his back was broken, and there was a compound fracture of the right leg between the knee and ankle.

The dead and injured were placed on a special and the body of Vaughan left at Pikeville to be prepared for burial, while Williamson, in charge of C. & O. surgeon Z. A. Thompson, was brought to this place arriving about 5 a. m., Wednesday, and taken to Riverview hospital. The poor fellow was beyond all human help, however, and died at 11:15. He never rallied from the shock of the injury. The body was properly cared for, placed in a casket and sent to his home on the 5:24 train.

Young Williamson was a son of Mr. and Mrs. James M. Williamson, of what is known as Old Peach Orchard, a short distance below Richardson, and a brother of Mont Williamson a farmer living near this city. This brother and the aged mother were present during the final hours of the son and brother.

Deek Vaughan was a son of Mr. Sam Vaughan, who lives at the old Forbes station, between Peach Orchard and Richardson, and was a nephew of Mr. P. H. Vaughan, of this city.

Both young men were sober and industrious and highly respected, and their sudden and untimely taking off is greatly lamented by relatives and friends.

THE PASTOR.

OPERATION FOR TUBERCULOSIS

Dr. T. D. Burgess went in Gallur Tuesday and operated on a son of John H. Prosser. Tuberculosis is one of his ailments. The young man is about 18 years old.

TWO BROTHERS KILLED.

According to a report that reached here yesterday afternoon, two men, twin brothers, were struck and instantly killed at Bluestone, W. Va., a small station on the Pocahontas division of the Norfolk and Western. The men were Elbert and George Baker, papers among their effects giving their homes as Louisa, Ky.

According to the details of the double tragedy the two men had been stealing a ride on an eastbound freight, but were driven from the train at Bluestone by the conductor. The two were engaged in a game of "crap" when struck by extra west freight No. 1039. Their bodies were hurled some distance and death was instantaneous.

The corpses of the victims were held at Bluestone awaiting the arrival of relatives from Louisa, Ky.

KENTUCKY ASPHALT AND FIRE-CLAY.

Referring to plans for Kentucky developments, S. M. Bradley of Morehead, Ky., writes to the Manufacturers Record as follows:

"We have not started operations in regard to developing asphalt rock in Carter county, but we have recently acquired more of this territory and have some very fine deposits of asphalt and fire-clay. We are contemplating organizing a large company to work these mines. We have enough fire-clay and asphalt now to run a number of plants for years. As it has all been worked and tested, there is no question as to the quality."

AFRAY IN FLOYD COUNTY.

Epp. Lafferty, marshal of Prestonsburg, shot and probably fatally wounded Sid. Blizzard in a shooting affray which occurred between Lafferty and Blizzard, here last Sunday. Lafferty had hidden an arrest, and we are informed that Blizzard who is considered a dangerous man, tried to take the prisoner, shot twice, missing Lafferty when Lafferty shot him three times.—Prestonsburg Monitor.

PIPE LINE PROBLEM

Is Now Confronting Operators in This Oil Field.

There is not much news from the oil field this week. Work on several wells is going along satisfactorily. The Potest well east of Insseyville should be completed next week.

The machinery for the Burgess-Garred well will be moved to the location within the next few days. The derrick has been completed.

Some of the Cumberland Pipe Line Company's men are here, so we are informed, to put in a line from the Insseyville field.

It is reported that some local men of means who have interests in the oil field are figuring on laying a pipe line to the railroad so as to get full price for the oil. The oil is worth \$1.50 per barrel, but it is said the Cumberland proposes to run it into their line carrying cheaper oil and pay something less than one dollar per barrel. We are not giving this as absolutely correct information, but the fact that the same thing is being done elsewhere lends credence to the report. Fortunately, this oil field is so near a railroad that the operators are not at the mercy of any pipe line. If they will refuse to sign a contract, that would be the end. All local companies should pull together in this most important matter.

On Turnling creek, W. Va., two wells from Warfield, Ky., a gas well was drilled in, making nearly two millions feet per day. The lease belongs to a company in which Judge John H. Holt, Dr. M. G. Watson and others are interested. The contractor is Earl Cameron, of Louisa. The company will continue the drilling to the big Injun sand in search of oil.

The Busseyville Oil Company purchased two gas engines and are sampling their wells.

NO NEED OF PANIC.

The interview with Gov. McCreary, published in The Times of Saturday concerning the appropriations made by the General Assembly should put a quietus on the notion that Kentucky is about to go into bankruptcy.

That the General Assembly has been liberal in its appropriation for education is not to be denied. That it would have been far better for the State had this policy been inaugurated years ago, is not open to intelligent dispute. As to the other appropriations approved by the Governor, his statement makes it clear that they have been carefully considered by him and by the General Assembly and the State, in virtually every instance, will get a full return on its investment. No more could be asked.

The bank examiner's law, instead of imposing a cost of \$25,000 a year on the taxpayers, will not cost them a cent, although it gives to every depositor an assurance of security heretofore unknown. Ten thousand dollars a year is a small sum to pay for State supervision in the handling of funds. It would have been wise economy had the cost been \$500,000 with State aid the result.

The Times believes that it would have been better both for the party and the State had the prisons been taken out of politics and all questions of administrative policy now essentially partisan in their nature been removed from the atmosphere of political patronage, but when it comes to a conservative, common sense administration of the State's business affairs and educational interests, Gov. McCreary's judgment can safely be trusted.

Through the joint acts of the Governor and the General Assembly Kentucky is at last headed in the direction of material development and progress. The goal is not to be reached without cost. As the old negro preacher said to his congregation: "It ain't no breddren and sistren, dat de watehs uv life is free, but somebody is got ter pay fur de hydrant."—Louisville Times.

NASH CLOTHING COMPANY.

The Nash Clothing Company—Na-Clo-Co.—is now occupying its new and very attractive place of business, on Main Cross street, nearly opposite the court house. It has been especially fitted up and arranged for the company's business—clothing, hats, shoes and everything worn by men. Everything, including the stock, is spick and span, in style the goods are the latest, and in quality they are of the best. Read the Na-Clo-Co. ad. in today's paper.

SKINNED A BLOCK.

A Breathitt county farmer sold a merchant what the buyer supposed was a five-pound ball of fresh country butter but what turned out to be a robust wad of cornmeal dough, with a thin veneering of butter. The "sang" digger who loads the roots with lead and sells the stuff at present prices has the Breathitt man skinned a block.

DEATH

Comes Alike to Young and Old.

Four Persons Known Here Respond to the Call of the Relentless Reaper.

Ed. Wellman.

After an illness of several weeks young Ed. Wellman, son of Mr. and Mrs. Charter Wellman, of this city, succumbed to the ravages of typhoid fever on last Saturday evening. The funeral services were conducted at the Christian church by the pastor, the Rev. C. M. Summers on Monday afternoon, and were largely attended, the church not being large enough to accommodate all who sought this occasion to manifest their sympathy for the parents and kindred of the dead boy. Interment followed in the Fulkerson cemetery.

The deceased was in his eighteenth year and was an excellent young man. Not long before his sickness he had gone to Pikeville to work at his trade of a printer, and it is thought that he contracted fever while there. About a week after his return to Louisa he began to complain of feeling bad. This continued for a week when he went to bed, sick of the malady, which caused his untimely death. Much sympathy is expressed for the bereaved family.

Former Louisan Dead.

Judge Thomas Bogges, formerly of this city, died at his home in Ashland last Saturday night after lingering on the brink of death for weeks. Mr. Bogges was 83 years old and was born in March 1829, in Marion county, Va.

He is survived by two sons Thomas Bogges, who was postmaster here for the past twelve years, Charles Bogges, civil engineer and two daughters, Agnes and Bertha Bogges, who are at home.

He and his family lived in Louisa several years. He was a merchant, doing business in the old brick on the corner of Main and Water streets. He was a highly respected citizen.

Mr. Tate Greaver.

Mr. Tate Greaver, son-in-law of the late Judge Richard Vinson, died of Bright's disease at his home at Wytheville, Va., last Sunday night. News of his critical condition reached Louisa Saturday in time for Mrs. Greaver's sister, Mrs. Vic Prehard, to leave on the night N. & W. train for Mr. Greaver's home. Interment was made at Five Oaks, Va. Mr. Greaver was about 45 years of age and is survived by a widow, who was formerly Miss Lora Vinson, and by two children a boy and a girl.

Death of a Child.

Fred, the four-years-old son of Mr. and Mrs. Charles Hawes, of Walbridge, died on the night of Wednesday, March 13, of brain fever. The child had been sick of whooping cough, then pneumonia followed, and inflammation of the brain closed the short life of a very bright and interesting boy.

SHOULD MAKE A NOTE.

A Cincinnati girl was visiting in Augusta, Ky., about three years ago, and while there she slipped on the street and injured a knee. She brought suit for damages, claiming there was a hole in the sidewalk. In the Federal Court at Covington she was awarded a judgment for \$2,500. There is scarcely a brick sidewalk in the city of Louisa that has no holes or had places, almost any of which is sufficient to cause a pedestrian to fall. At the intersection of Lady Washington and Main streets there are two holes, each two or three feet deep and sufficiently wide to admit two legs of a horse. These holes have been there ten days or more, with nothing to show their location except a couple of sticks. Anyone injured by these bad sidewalks or these pitfalls can obtain a judgment against the city for damages. Why does the city take the risk?

BISHOP BURTON.

Bishop L. W. Burton, of the Episcopal church, held services and preached in the M. E. Church, this city, on Monday night last to a very large and intelligent audience.

The sermon is pronounced by all who heard it a splendid effort, one of the best in every respect they ever heard. It was grand in conception, grand in composition and magnificent in its delivery. It was heard with rapt attention from the exordium to its fitting close. Bishop Burton's scholarship, his eloquence, his faultless diction and splendid voice make him a most captivating speaker. Following the sermon Miss Kate Freese sang a solo in her own delightful way.

During his stay in Louisa Bishop Burton was the guest of Dr. and Mrs. Wroten.

MISSOURI TOBACCO.

Some of the Missouri tobacco on the Maysville market sold at a good price while some of it was passed up without a single bid, the buyers claiming they could not use it in any way.

Farmers in this section who intend to raise the weed should make a note of this fact and sow the right kind of seed.

STREET PAVING.

Gist of the New Law for Towns of the Fifth Class.

Following are the chief provisions of the new law giving City Councils of fifth class cities the power to have the streets paved and sewers put in:

The city council is hereby authorized and empowered to order any work they may deem necessary to be done upon the sidewalks, curbs, sewer, streets, avenues, highways, and public places of such city. The expenses incurred in making and repairing sidewalks and curbing shall be paid by the owners of the lands, fronting and abutting thereon, each lot or portion of lot being separately assessed for the full value thereof, in proportion to the frontage thereof to the entire length of the whole improvement, not exceeding a square, sufficient to cover the total expense of the work; but the owners of such property shall have the right to make such improvements, if they prefer doing so, instead of paying for the same. The cost and expenses incurred in constructing or re-constructing streets, avenues, highways, sewers and public places shall be paid out of a general fund of the city or by the owners of the land fronting and abutting thereon, as the city council may in each case determine; or the city council may order and direct that two-thirds only of said cost and expenses so incurred shall be paid by the owners of the lands fronting and abutting said improvements and the other one-third paid by the city; but the local assessments shall not exceed fifty percentum of the value of the ground after such improvement is made excluding the value of the buildings and other improvements upon the property so improved.

The cost of constructing or reconstructing the later-section or cross-

ing of streets, avenues and highways shall be at the expense of the city.

The ordering of such improvement shall be by ordinance of the city council, and the contract therefor shall be awarded to the lowest and best bidder after proper advertisement for bids. The city council shall require the accepted bidder to execute a bond to the city with good and sufficient security to be approved by said council for the faithful performance of his contract.

The original construction or reconstruction of any streets, avenues, highways, alleys, sewers and public places may be made at the exclusive cost of the owners of the lots and part of lots or lands fronting or abutting or bordering upon the proposed improvements to be equally apportioned by the city council according to the number of front feet owned by them respectively or in part at the cost of the owners and in part at the cost of the city, upon the petition of a majority of the property owners of lots or parts of lots, or land abutting or bordering upon the proposed improvement; or the city council may cause same to be done without such petition upon the vote of four members elect of said council at a regular meeting thereof; or the council may, by a majority vote of any regular meeting thereof cause any such improvement to be made upon the ten year bond plan as hereinafter provided.

But any work undertaken under the provision of the preceding section to-wit: Upon the ten year bond plan is completed in accordance with the contract, the work shall be received, by the city council and the said council shall order the payment for the same made to the contractor by issuing an order to the city treasurer to pay same in full out of "The Street Improvement Fund."

Whenever any work done hereunder (upon the ten year bond plan) has been completed and accepted, the city council shall issue the bonds of the city, in sums not exceed the cost of said improvement, and all expenses in connection therewith, including the expenses and the issue and sale of said bonds, and shall sell the same to the highest bidder after due advertisement at a price not less than par and accrued interest. Said bonds shall be divided into ten series each series to be as nearly equal as possible, said series to be paid respectively in one, two, three, four, five, six, seven, eight, nine and ten years after date. Said bonds shall be of the denomination of one hundred dollars or multiple thereof not exceeding five hundred dollars, and shall bear interest at a rate not to exceed six percent per annum, and shall be payable at a Kentucky bank to be designated by the city council.

All property fronting or abutting or bordering upon said improvement belonging to the city shall be considered and assessed as property belonging to individuals, and the assessment thereon together with the cost of intersections and crossings shall be paid by the city out of the general fund, and charged to the "Street Improvement Fund." The assessment shall be made as soon as the improvement fund is fully completed, and the sum assessed against each piece of property, and also the owners thereof, shall be placed upon the tax list of the city, and shall be payable to the city treasurer, in ten equal annual installments with interest at the rate per annum which said bonds bear upon the unpaid portion thereof.

The owner or owners of lots or parts of lots of land, may at any time after the assessment for a street improvement is made, pay off in full the whole amount up to and including the next ensuing date provided for the payment of said city taxes.

A PLEASANT AFFAIR.

Seven or eight couples assembled at the hotel Savoy Tuesday evening and spent several hours in dancing. The affair was very informal and very pleasant, having been greatly enjoyed by all who were so fortunate as to be present.

W. J. Vaughan, the State Sunday School field worker, was here Monday night on business, and was the guest of Frank Henderson, of Lexington avenue.—Ashland. Independent.

As Mr. Rutherford values "Shep" very highly, he objected to his being killed unless it could be proved that he was guilty, and the matter was taken into court.

The trial resulted in the dog's acquittal, as it was proved that he had nothing to do with the killing of the sheep.

Lexington, Ky., March 14.—Word was received here Wednesday that Gov. Kitchin, of North Carolina, had committed to time served—about two years—the thirty-year sentence imposed on Thomas E. Whitson, convicted of murder. Whitson, after his conviction, escaped from the penitentiary, and for sixteen years had lived, under an assumed name, an exemplary life in Letcher county, Ky., where he had married and reared a family. Whitson was arrested here about a year ago by Chief of Detectives Malcolm Brown and taken back to North Carolina. Mr. Brown felt deep sympathy for the man, and was one of those who had signed a petition to Gov. Kitchin for Whitson's pardon, which was signed by a large number of the best citizens of Letcher county, who had known and respected Whitson during his long residence there.

Apparently unmoved by his crime young Petty reloaded his gun and fired another shot into the prostrate form of his father. He will be placed in the county jail at Murray to-night.

Glasgow, Ky., March 16.—Great excitement prevails in Monroe county over the finding of a little baby floating down the Cumberland River in a barrel. The baby was a boy and seemingly about one year old. The barrel was securely fastened to two logs and was so arranged that the youngster could not crawl or fall out. The baby was well dressed and was resting on a cozy little bed in the barrel snugly tucked in a blue blanket. Pinned upon the dress was a slip of paper with the words, "Goodbye, Willie," written upon it. The child is being tenderly cared for, and in the meantime every effort is being made to find out the starting point of the youngster in the hope of obtaining a clue to its parents.

Havann, March 16.—Under lowering skies and in a heavy, tumbling sea, the old battleship Maine, resuscitated after fourteen years' burial in Havana harbor, to-day plunged with her colors flying to her everlasting rest 600 fathoms deep in the sapphire waters of the Gulf. The sinking of the hulk was carried out precisely as planned, marking the end of the great work begun more than a year and a half ago.

After imposing ceremonies in the morning, which ended with the formal transfer of the custody of the bodies of the heroic dead by the Mayor of Havann, Julio de Cardenas, to Brig. Gen. W. H. Bixby, chief of the engineer corps, United States army, as the representative of the United States, the coffins were taken aboard the armored cruiser North Carolina, where they were deposited on the quarterdeck, completely covered by a great mound of floral tributes, under a guard of honor composed of marines. Jurors who had tried the case were seriously wounded, J. H. Blacken-ship probably fatally.

The Allens, including the prisoner and their friends, after the killing of the Sheriff, backed slowly out of the court room, holding all would-be pursuers in check at the point of revolvers. Once outside, they made a dash for the mountains on horseback. A posse of citizens was in pursuit, and reports have reached here that one of the Allens had been seriously wounded in a pitched battle which was fought with the posse.

Special officers are being rushed into the county to help in running down the murderers. Gov. Mann is holding two companies of militia in readiness in case the Allens and their friends gather recruits in the mountain fastnesses. Hillsville is in a remote quarter, fifteen miles from Barren Springs, the nearest railroad station, and outside help will be late in arriving.

The village was thrown into a ferment. The wiping out of the law officers left affairs in the hands of untrained citizens, but nearly every man in this section of the county has joined in the hunt.

Hillsville, Va., March 15.—The end of the day's chase of the Hills-ville raiders brought the death list of the court-house tragedy and its sequel up to five.

Sidna Allen's wife is dead, shot in a pitched battle with a posse in the mountains while helping defend her outlaw husband.

The fifth death was that of Nancy Ayres, a 19-year-old girl, accidentally shot during the fusillade in the courthouse yesterday.

Blair and the Deputy Sheriff went to arrest Morgan on a penal charge when Morgan resisted and opened fire, killing Blair on the first charge.

San Antonio, Tex., March 18.—Between twenty and thirty men were killed outright and fifty injured in an explosion of the boiler of one of the Southern Pacific railroad's finest locomotives in the yards here to-day.

Many of the dead and injured were strikebreakers, mostly from the North, who came last fall at the beginning of the Southern Pacific steammen's strike, which has not yet been settled.

A full public investigation into the explosion will begin immediately. Four buildings, forming a square about the trucks where the locomotive stood, were wrecked.

MEMOIR.

Mrs. William Peck was born in 1873, and fell asleep March 8, 1912. At the age of 21 she was converted and united with the Methodist Episcopal Church at Peck's chapel. The following evening her beloved husband also was converted, following her good example. Thus her very earliest Christian experience began bearing fruit for the Master. For many weeks prior to her death she was a great sufferer, but between the moments clouded with suffering her beautiful soul would emit the radiance of a joyful, consecrated life. She leaves a husband, and seven children and a host of relatives and friends who rejoice in the blessed hope of the resurrection, but her spirit is already with our Lord. She was never so much alive as at this moment. Death to the child of God is an unfolding of pinions, an opening of doors, and entrance into a larger life, a beautiful life, full of glory and felicity. Let us not be selfish in our grief, but say with the saint of old, "The Lord gave and the Lord hath taken away, blessed be the name of the Lord."

Her body was laid to rest in the old cemetery near Chapman, Ky., March 11, 1912, the pastor officiating. May we take comfort in these words, "He that believeth in me, though he were dead, yet shall he live again."

"There are three words that sweetly blend.

That on the heart are given;
A precious, soothing balm they lend,
They're mother, home and heaven

They twine a wreath of beautiful flowers,

Which, placed on memory's urn,
Will e'en the longest, gloomiest hours
To golden sunlight turn.

They form a chain whose every link is free from base alloy;
A stream where whosoever drinks
Will find refreshing joy.

They build an altar where each day
Love's offering is renewed;
And peace illumines with gentler ray
Life's darkened solitude.

If from our side the first has fled
And none be but a name,
Let us strive the narrow path to tread,
That we the last may gain.

had forgotten," he answered, releasing her hand reluctantly. "If you could have looked into the dining-room since, instead of staring out of these windows."

"Why? How forgotten?" her eyes opened wide in surprise.

"I had the pleasure of taking supper with Miss MacLaird."

"Oh!" the exclamation decidedly expressive.

"Yes, I come at once to you with the confession. However, our meeting was purely accidental, and so I hope for pardon."

"Pardon from me? Why, what difference can it possibly make to me?"

"Would you have me consort with the enemy?" he asked, severely daring to press his deeper meaning.

"Oh, no, of course not. What did you talk about? Do you mind telling?"

"Not in the least; our conversation was entirely impersonal. She was telling me about lawless; what a wonderfully good man he is. I have begun to suspect the fellow has fascinated the poor girl—he is a good looking devil, possessed of a tongue dripping with honey."

"Surely you do not mean she has fallen in love with him," and Hope shuddered at the thought. "Why—why that would be impossible for a good woman."

"Standards of morality are not always the same," he defended gravely.

"Miss MacLaird's environment has been vastly different from yours, Hope. She is a variety hall singer; probably, from her own account, a waif since childhood; and Hawley has come to her in the character of a friend appealing both to her interest and sympathy. I do not know she is in love with him, I merely suspect she may be; certainly she is ready to do battle on his behalf at the slightest opportunity. She believes in him, defends him, and resents the slightest insinuation directed against him. He even escorts her back and forth from her work."

"You know this?"

"I certainly do," and he laughed at the recollection. "Fairbairn met us coming out of the dining-room—you know what a delightful, blunt, blundering fellow he is! Well, Miss Christie must have made an impression even on his bachelor heart, for he actually requested the privilege of escorting her to the Trocadero, and back to the hotel after the performance to-night—lunched at a lunch, the key old dog, and pronounced about like a strike-door Johnnie. It was a treat to watch her face when he blurted it all out, snapping his sentences as if he swung a whip-lash. She excused herself on the score of a previous engagement."

"But that was not necessarily with Hawley."

"I asked her directly, after the doctor had disappeared."

"You must have become very familiar," questioning once again in her voice.

"So Miss MacLaird evidently thought, judging from her manner. However, she answered frankly enough, and even defiantly added the information that the gentleman had something to say to her of the utmost importance, sarcastically asking me if I didn't wish I could be there and overhear. But sit down, Hope, until I tell you all that has occurred."

He went over the various events in detail, watching eagerly the expression upon her face as she listened intently, only occasionally interrupting with some pertinent inquiry. The light fell so that she sat partially in the shadow, where her eyes could not be seen, yet to experienced no difficulty in comprehending the various incidents which she met his narrative, the color changing in her cheeks, her lips, and her hands.

He looked back at her, her fingers crossed, and she began to tell him of her own experiences at the Trocadero. He began with Keith's report, repeating word by word, as nearly as he could recollect, what had passed between Hawley and her father. He paused to inquire if she had ever heard the name Bartlett, but her reply was merely a negative shake of the head. When he described their riding on the train, she was apparently not convinced as to the General's desire upon it, although fully agreeing that, if he really believed the report that the man sought was elsewhere, it would be characteristic of him to accept the first means of getting there. "If he only knew I was here," she exclaimed wearily, "it might be so different, but, oh, we are all of us just groping in the dark."

Then Keith turned to his chance meeting with Miss MacLaird, and repeated carefully their conversation, dwelling particularly upon the few admissions which had slipped through her lips. These did not seem important to either, although they treasured them up and talked them over. Then, having exhausted the topic, silence fell between them, Keith asking the privilege of lighting a cigar. Hope, after watching him apply the match, thinking what a fine face he had as the ruddy flame brought it forth with the clearness of a cameo, leaned back, drawing aside the semblance of a lace curtain, and staring forth, without seeing into the street.

Somewhat it was hard for her to fully realize the situation, and how close it affected her. The swiftly passing events, the complication arising so suddenly, apparently out of nothing, left her feeling as though she must surely awake from a dream. She could not comprehend what it was all about; the names Bartlett and Phyllis had no clear meaning, they represented nothing but shadows; and this other woman—this music hall singer—what could there be in common between them? Yet there must be something—something of vital importance to her father—something which had already cost her brother's life. That was the one thing which made it

seem an actuality—what brought it home to her as a rugged fact. But for that—and Keith—Keith sitting there before her—she would have doubted it all. And yet even Keith had come into her life so suddenly, so unexpectedly, as to leave her dazed and uncertain, that she extended her hand and touched him, as though to make sure of his actual presence.

"What is it, Hope?"

"Oh, nothing—nothing," her voice breaking in a little sob. "It is so silly, but I was just wondering if you were real—everything seems so impossible. I cannot bring my mind to grasp the situation."

He did not smile, but only took the groping hand into both of his own.

"I think I understand, little girl," he said gravely. "You are totally unused to such life. Almost without a moment's warning you have been plunged into a maelstrom of adventure, and are all confused. It is different with me—since the first shot at Sumter my life has been one of action, and adventure has grown to be the stimulus I need, and upon which I thrive. But I assure you, pressing the soft hand warmly, 'I am real.'"

"Of course I know that; it makes me glad to know it. If I could only do something myself, and not just sit here, it would all become real enough to me."

She rose suddenly to her feet, clasping her hands together, her face changing with new animation.

"Why couldn't I? I'm sure I could. Oh, Mr. Keith, it has just come to me how I can help."

He looked at her questioningly, thinking of her beauty rather than of what she said.

"Do—do I really appear so much like—like that woman?" she asked anxiously.

"Very much, indeed, excepting for the slight difference in age."

"That would never be noticed in the dark, or a poor light. Am I the same height?"

"Practically, yes."

"And my voice?—could you distinguish me from her by my voice?"

"I might; yet probably not, unless my suspicions were aroused. What is it you are thinking about?"

She took a deep breath, standing now directly facing him in the light.

"Of playing Miss MacLaird to-night," she said quickly. "Of taking her place, and learning what it is of so much importance Hawley has to report. Don't you think it might be done?"

The sheer nudity of this unexpected proposal left him speechless. He arose to his feet, gripping the back of the chair, almost doubting if he could have heard aright, his eyes searching the girl's face which was glowing with excitement. Of course he could not permit of her exposure to such a risk; the scheme was impracticable, absurd. But was it? Did it not offer a fair chance of success? And was not the possible result worthy the risk assumed? He choked back the earlier words of protest unuttered, puzzled as to what he had best say. A quick-witted resourceful woman might accomplish all she proposed.

"It looks so simple," she broke in impulsively, moving nearer him. "Don't you think I could do it? Would it be unwomanly?"

"The result, if accomplished, would abundantly justify the means, Hope," he acknowledged at last. "I was not hesitating on that account, but considering the risk you would incur."

"That would be so small—merely the short walk alone with him from the 'bachelor' to the hotel," she pleaded. "Once here it could make no difference if he did discover my identity."

He looked at her, her fingers crossed, and she began to tell him of her own experiences at the Trocadero. He began with Keith's report, repeating word by word, as nearly as he could recollect, what had passed between Hawley and her father. AND READ THIS TESTIMONIAL written by Albert Hampton, Radnor, W. Va. "I write for the interest of the ones who are suffering with catarrh, for catarrh is a disease that I have experienced. For eight years I suffered with the dreadful malady. Doctors pronounced that I would have consumption in a short while and I really thought so myself. And I kept using anything and everything that was recommended for catarrh, but gave up all hopes, when a friend of mine wanted to sell me a box of W. D. Fitzpatrick's Catarrh Remedy. I said no, I'll not buy it. I have used so many remedies that were worthless it makes me doubt all the rest. My son was present and he said, 'Father, if you will use it I will pay for it.' I agreed to the proposal, and began using it, and I soon felt that I was receiving good results. I continued on until I used the box nearly up and now I am well. I cannot praise the W. D. Fitzpatrick Remedy too highly. I trust those who have lost faith in other remedies like I had will try W. D. Fitzpatrick's Catarrh Remedy. Send today and give it a trial. Don't neglect yourself, because I urge that catarrh at any time is liable to assume dangerous characteristics." Put up in liquid and powdered form, 25c, 50c, \$1.00 sizes.
